PRE-PLANNING GUIDE

Our staff is dedicated to providing meaningful ways to celebrate and honor your pet's life. That is why we have designed this pre-planning guide to help you make final arrangements for your beloved companion.

Losing a pet is an emotionally difficult experience regardless of whether it was anticipated or unexpected. Pre-planning can minimize or eliminate the need to make those difficult choices during a stressful time. You can have peace of mind knowing that when the need arises for aftercare, decisions have already been made.

Researching pet aftercare is difficult but so important to ensure you are aware of all your options. While you've probably heard of cremation, it is not the only choice. We are proud to offer an alternative, "Aquamation", which is a process that may be better suited to you. Please see our Aquamation page for details.

PET FUNERAL SERVICES

PRE-PLANNING CHECKLIST

If something were to suddenly happen to you, is there a plan in place for the care of your pet?

Establishing a chain of custody is often overlooked by pet owners but helps to make the transitions of this kind more seamless and therefore less traumatic.

While we encourage pre-payment to remove the possible financial burden of your pet passing unexpectedly, pre-planning services are available with no financial obligation. Please download this PDF if you feel it would be a useful tool.

Having a support network is crucial during your time of grief. No matter how big or small your support network is, we have groups and resources available to you. Please reach out to us for more information and support.
